

the flexor of the hip

6. *groove for the ulnar nerve*

when she broke my leg
 i spent a month on crutches
when she broke my arm
 i couldn't throw to home
when she broke my heart
 it was like my elbow
when she hit my funny funny funny
 funny bone

when we shoot the moon
 we stay up for ages
when we jump the shark
 there's no way but down
when we hit rock bottom
 see the heights behind us
when we see the funny funny funny
 all around

ALL TOGETHER NOW...
