

16 monkeyball

collab with squealin brut

february 10, 2025

What we have here is, is not an apple with a worm in it, but we have actually just a ball of worms.

If you've got an apple that's got a worm in it, maybe you can take the worm out. But if you've got actually just a ball of worms, it's, it's hopeless.

And USAID is a ball of worms. There is no apple. And when there is no apple, that's, there's you've just got to basically get rid of the whole thing.

once upon a time

on a ball in space

chemicals complexed

with copulative grace

and as time rolled by
there upon that ball
molecules got bigger
and they built up walls

some got together
others got caught
eternal intermixing
led to conscious thought

worm solo

and once upon a time
on that ol' ball in space
there was a slow ascension
there was a master race

and in the end
there was no escape
there was no earth left
it was a ball of apes

if underneath the monkeys
there was any earth at all
there was no earth left
it was a monkeyball

if underneath the monkeys
there was any earth at all
there was no earth left
it was a monkeyball
