To: the kindred out there somewhere
From: some elsewhere far and away
Re: trying to explain
Nature and nurture. Within you and without you. The world and what you make of it. Not all
lost. Not all with ranger potential will fulfill it. The proud. The few. This here's just a collection
caught in the eddies of the great river over time,
sampled and preserved at one particular moment.
Turn the glass. Put your boat on the river.
There is nothing else.
